

U.S. Patent Application No.: 10/631,955

**REMARKS**

The cancellation of claims was made in response to the regulations under 37 C.F.R. § 1.75(b). Applicant believes that this family is now in compliance. In cancelling these claims, Applicant has not and does not in any way narrow the scope of protection to which Applicant believes the invention is entitled. Applicant reserves the right to pursue further protection via reinsertion of cancelled claim elements at a later point in time, and with this amendment seeks to pursue protection for the subject matter presently claimed.

Respectfully submitted,
